

Assignment 4

1. Transfer Learning in Generative AI .
2. Basic Principles of GANs .
3. Discuss about RAGs and its advantages of using .
4. write advantages and disadvantages of swarm optimization to conventional computing Algorithm .
5. Develop a generic Algorithm for a scheduling Problem .
6. Difference between Ant Colony Optimization & Swarm Optimization .
7. Discuss about expert system .
8. Discuss about LLMs.
9. Difference between Proportional Logic & Fuzzy Logic .
